

You may be wondering what is happening with our Public Works Foreman position here in GlennsFerry.

I want you all to know that we are advertising the job out to all of the sources that we can think of.

My plan is to screen all of the applicants that we receive and have a panel select the top 2 candidates and submit them to the Mayor for final selection. I will then submit my selection to the Council for confirmation.

My current schedule for this is to start the process on April 1, 2018 with a selection being made by mid-April with a reporting date of May 1.

I intend to utilize a subject matter expert, a citizen, and a department head to screen all applicants and submit the candidates to the Mayor for final selection.

I encourage anyone to apply and to also tell any potential candidates about the job and encourage them to put in for the position. We currently have received some interest in the job and I hope this will continue.

I want all of you to know that we are working very hard to find the right person for this very important position.

Monty
